

APPLICATION GUIDE

THRIVEDO™

Powered by OPUSMAX

THRIVEDO is a protein surfactant complex. By powering yeast extract with **OpusMAX**, Verano365 has created a novel and effective formula that drives nutrient efficiency, water uptake, and overall plant vigor.

THRIVEDO COMPOSITION

- 18.7% Yeast Extract (Saccharomyces cerevisiae)
- 8.8% Proprietary Surfactant Blend
- Powered by OpusMAX formulation technology

THREE IMPACTFUL RESULTS

1. Increased nutrient assimilation
2. Improved wetting & water uptake
3. Enhanced vigor, growth, & flowering

THRIVEDO® & MEDICINAL CANNABIS | TECHNICAL USE GUIDELINES

Recommended Rate
- 5ML/GAL – 10ML/GAL

Carrier
- Water

Application Method
- Soil Drench

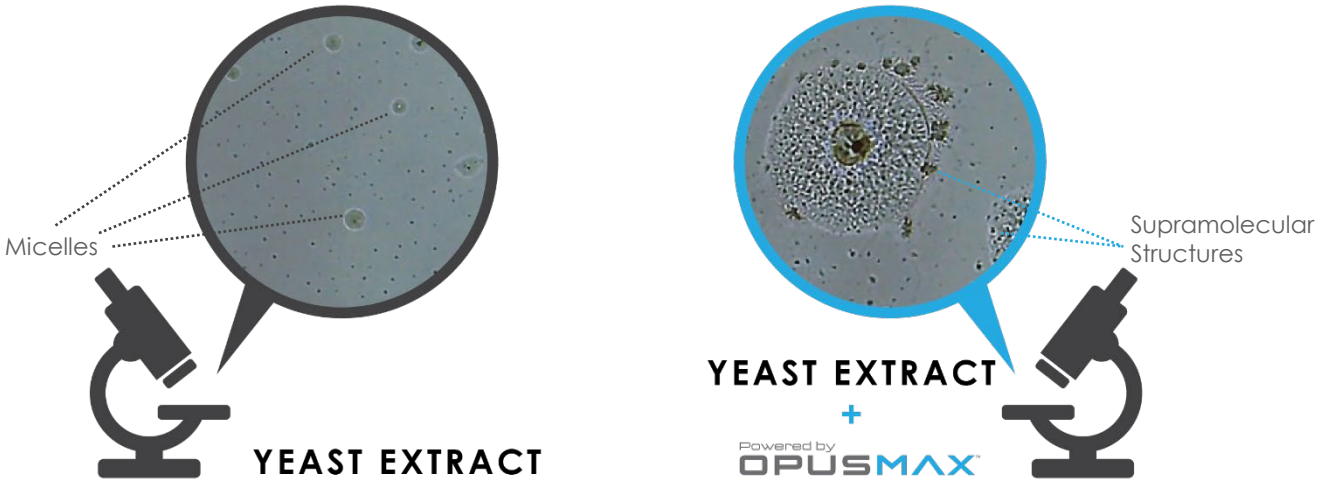

Volume
- Apply 20 fl. oz. of solution per 1 gallon of substrate based on pot size
- *(i.e. 1 Gal = 20 ounces of solution; 2 Gal = 40 ounces of solution, etc.)*

Application Frequency
- Weekly

Application Duration
- 7-10 Weeks

Application Timing
- Vegetative & Early Flowering
